**Have any goals been set? If so, what are they?**

**What accommodations does s/he receive? Have these been upheld?**

**Has there been any progress? Do you have examples of progress?**

**What are the top issues that still need to be addressed?**

**What is the plan for addressing these issues?**

**What can we do on our end to help support?**

**How can we stay in the loop about how the progress is coming along?**
